

Jeffrey Lynn Clements Jr.

Date of birth December 28, 1979

Date of death July 19, 1997

Jeff was the second of three children. He was like his sister Michelle, born with multiple heart defects. He was a “blue baby”. he would have to have open heart surgery to correct these problems. He was such a happy baby despite the problems he started his life with. His smile could melt your heart. There was nothing that he couldn't do and nothing that he wouldn't try.

He loved his dog and cats. The dog was his pal and protector. No one could get close to him without the dog knowing. He would be ready at a moments notice to respond. When Jeffery went to school the dog was completely lost. The dog would lay by the front door waiting for Jeffery to return from school. Jeffery had regular doctor and cardiologist appointments thru the years for his heart conditions. At the start of his teen years, Jeffery was taking things apart to see how they would work while trying to make them better. At the age of 16 Jeffery got his driving permit and took his training and at this time took a part time job with me and hung out with his friends and rode his bike.

Then the unthinkable happened. on the July 19, 1997 his heart went in to arrhythmia and he was taken from me because he was needed elsewhere. I will be with him and his sister at different time and different place.
